## Resort Hamptons beach Club

Take inspiration from the tranquillity of a beachside resort and the subtle sophistication of the Hamptons style and create your own exclusive Hamptons Beach club retreat at home. Relaxation meets the exclusivity of a private club with this transitional cool coastal style. Light natural timbers mixed with painted timber furniture mingle with accents of wicker furniture to make the ultimate beach haven. The base palette of fresh whites and light greys are interspersed with pops of colour to add a fresh, bright, feel-good factor.
